Hi, there, it's Mariia Zhabadynska.

I believe in strong dedication to every project. I have successfully completed front-end development courses at IT Step, where I gained solid knowledge in web development. My goal is to continuously improve my skills and apply them to deliver high-quality results.

I am passionate about web development and committed to ensuring client satisfaction with every project I take on. I strive to create modern, user-friendly websites using the latest technologies and best practices.
